THE LEWES PUBLIC LIBRARY IS
Going Solar
...and YOU can help!

Solar energy is the cleanest, most abundant
source available. And now you can help bring
it to the new Lewes Public Library.

FOR THE NEXT
50 YEARS

Please cut along fold and return!

SPONSOR A PANEL

Track the Savings

When you sponsor one or more of our array of solar panels, you'll be able to see what that means in real dollars.

We are planning a solar lobby display to recognize your donation and actually track, online, the amount the Library is saving - and has saved, since your panel was installed!

Upon completion, the new solar panels are expected to generate ALL the energy needed to heat and warm our new, larger library - repaying our investment in less than 10 years.

Combined with passive lighting, LED lights and a new VRF system, solar will make the new Library one of the greenest, most cost-efficient buildings in the greater Lewes region.

HOW TO BECOME A SPONSOR

Just let us know how many panels you would like, and we will assign those to you for tracking purposes. Sponsorship costs vary, based upon how many panels you wish to sponsor.

Number of Panels	Cost
1	\$ 195
2	\$ 350
4	\$ 680
6	\$1,000

Special Offer for Schools and Youth Groups

Select any number of panels for your school or class to sponsor at 25% off the listed cost!

Your donation is fully tax-deductible and will be recognized on a plaque at the solar display station, and through advertising in the Cape Gazette.

PLEASE RESERVE _____ solar panels to sponsor at the new Lewes Public Library. In the lobby display, please list sponsor names as:

Name(s)	# of Panels	Cost
_____	_____	\$ _____
_____	_____	\$ _____
_____	_____	\$ _____
_____	_____	\$ _____

Your Name(s) _____

Address _____

City _____ State _____ Zip _____

Telephone _____

Email _____

*Please make checks payable to
